Since Willie goes to school the cat
Lies dozing in her nook;
There are no startling screeches that
Make all the neighbors look;
His playthings all are piled away,
No books bestrew the floor,
But I have found a hat roday,
Deep-rooted, glistening and gray,
That hid lised before.

That hid itself before.

Since Willie goes to school I hear
No pounding on the stairs,
Nor am I called to help my dear
Make, "rese of the chairs;
And I. asy be a fool.
To shed the bears that atreak my face,
Since Willie goes to school.

"THE Goebel Law," says The New Orleans Times-Democrat, "did not recognize the right of political parties recognize the right of political parties to be represented upon the State Board. It was intended as a strictly partisan engine to be used by the party then in power to continue itself indefinitely in office, no matter what might be the vote of the people."

PROSPERITY has shared its blessings to the West and brought to him advanced prices for its his beef. In 1896, during Bemocracy and Depression, beef on hoof per 100 Mr pounds sold for \$8.25; in 1899, under and MCKINLEY and Prosperity, beef on hoof per 100 pounds sold for \$4.65. McKinley good times has reached all test classes of trade.

Half of the last British loan was taken by people in the United States, so that in place of this country having to work to pay interest to British hold-ers of United States bonds, the process is reversed and the Britisher is now compelled to send money to this councompelled to send money to this country to pay interest on his obligations.

This is another condition which
BRYAN promises to change when he BRYAN promises to gets into power.

THE wool growers and sheep raisers have been benefited to an unparalleled degree by the return of a Protective Tariff. During a Democratic Administration and the Wilson Tariff medium wool sold for 18° per pound in 1896. During McKinker and a Protective Tariff medium wool sold in 1899 for 31° per pound. In short the wool producers almost doubled the price of their wool under a Protective Tariff.

THE Democratic National platform condemns "the ill-concealed Republican alliance with England," while at the same time opposing the passage of the Ship Subsidy Bill, which seeks to take from British ships the 65% of American foreign carrying they now enjoy to give it to American ships in stead. It is singular that eyery British shiptowner and shipbuilder hopes for the success of the Democrats, if there exists an "ill-concealed Republican alliance with England."

Never before in the history of the United States has the output of Southern iron ore and pig iron, lumber, coal and coke been so large as it has been in the past two years, and not for years, if ever, have the prices on high. Never before was so large a proportion of Southern products shipped from Southern norts. Never before has money loaned at such low rates of interest. All this under the gold standard and a Protective Tariff. Yet the South will probably vote almost solidly for the free and unlimited coinage of silver and Free-Trade, as personified in Braxx. She will also vote for Braxay's Philippine and China ideas, and to cut off the great and growing Oriental market for her cotton goods.

Washington, Sept. 12.—Acting Secretary Melklejohn has authorized the chartering of a special train from St. Louis to carry quartegmasters and commissary supplies to the relief of the destitute at Galveston. Gen. Wilson, chief of engineers, has not yet received any advices as to losses upon fortifications and river and harbor works, though telegrams dictate that the fortifications have been damaged.

DEATH LIST GROWING.

Dead at Five Thousand, and He Is Conservative.

Galveston. Tex., Sept. 12—Mayor Walter C. Jones estimates the number of dead at 5.000 and he is conservative. Over 2.300 bodies have already been taken out to sea or buried in trenches. Other hundreds are yet to be taken from the ruins. These bodies are heing buried in trenches where they are found. Others are being buried in trenches where they are found. Others are being buried in the debris where this estempt as identification and it is safe to say that there will never be a complete list of the dead.

The ruins of the heavier brick buildings have not yet been searched for the dead and there is a large number in them. THE COTTON SECTION.

An Immense Amount of Damage I Been Wrought to the Crop in Texas By the Storm.

Houston, Tex., Sept. 12.—The great storm covered a large area of the cotton-growing section of Texas and did tremendous damage to the crop. A traveling man who covers a big area of the state reports that for a hundred miles west of Houston the wind and storms have wrought great have and all chances for a crop have been destroyed. Southwest of Hous-ton the fields are ruined. In large cotton-growing counties around Houston it is said crops have been besten into the ground and are worth-less.

"The United States does not feel called upon to express any opinion at this time as to the sufficiency of Li Hung Chang's authority, but hopes it will transpire that his credentials are full and authoritative not only without further delay to give assurance that the life and property of Americans will henceforth be respected throughout the Chinese empire."

From the formal statement given out Tuesday it appears that the state department is not yet ready to begin direct negotiations with Li Hung dentish as a plenipotentiary, but simply leaves the matter in abeyance. Probably this is because all of the powers have not yet returned their responses to the Russian note, and it is desired to avoid making the United States the first among the powers to the Russian note, and it is desired to avoid making the United States the first among the powers to the number of harmonious action and strike for Lindau States weeked. His later call was in part, at least, to secure transportation for Li Hung Chang's functions, as well as the communication as parently made it unnecessary at the communication apparently made it unnecessary at the communicat

"ig not proof against time, tide and circumes." Certainly nothings canes." Certainly nothings canes." Certainly nothings are consistent of President McKinley has atwarn forth so dense a mass of humanity as did the Waliace Circums cavalided. Of the parade itself only the most favorable things can be said. Some sixty cages were in line, each containing its portion of the big menagerie.

containing its portion of the big menagerie.

A feature of the procession was in the fact that the horses shown were, without exception, remarkably fine. Even the animals used in drawing the cages were apparently of good blood and were certainly well groomed. With the racers the lineage was indisputable. Stim ankles and the process of the cages were apparently of good blood stim ankles and long fettices, all attested to their birth and breeding. Especially beautiful were the eight steeds attached to the Roman charlots in line.
